

árvore-sabão

A circular inset image showing a close-up of a plant branch. The branch has several small, light green, star-shaped flowers and developing green fruits. The background is blurred, showing more of the plant and some green leaves.

ATRAI
ANIMAIS

5,0 - 20,0 metros

A large, mature tree with dense green foliage and many small, light-colored flowers or fruits hanging from the branches, set within a circular frame. The tree has a thick, light-colored trunk that splits into several main branches. The leaves are small, dark green, and appear to be pinnate. The overall shape of the tree is broad and rounded. The background is a plain, light color.
